29 March 1956

25X1A

MEMORANDUM FOR:

ELINT Staff Officer

SUBJECT:

Exploitation of System One and System Three

1. I have noted with interest the minutes of the Ad Hoc Requirements Committee meeting of 27 March in which you discussed planning and organization for exploitation of the tapes from VHF and ELINT.

2. It is my understanding that there is some uncertainty with regard to the establishment of TPC but that OSI has planned for temporary exploitation, if necessary, at Barton Hall in the emergency that the TPC is not established by the time we are in operations.

3. Would you be good enough to give me a memorandum which would answer the questions which I have set forth below so that I might keep abreast of where we really are on this matter:

- a. When is it expected the TPC will be established?
- b. Where will the TPC be located?
- c. What is the essential equipment, what has been ordered, and when is it to be delivered for both TPC and Barton Hall?
- d. What is the organizational pattern and TO for each establishment?
- e. How many people in each establishment will have to be knowledgeable of the Project in order to conduct their work?
